

Indexing without the headache

2index.ninja — your partner for accelerated page and backlink indexing.

More than 30,000,000 URLs have already been submitted for indexing. Efficiency ~ 80%

Problems of modern SEO

! Websites are indexed slowly

You invest in content and links. You create high-quality materials, place links on forums, in articles, in crowd marketing. And Google... stays silent. Indexing may take weeks, or even months. The problem becomes worse with large-scale campaigns – hundreds and thousands of URLs remain out of the game.

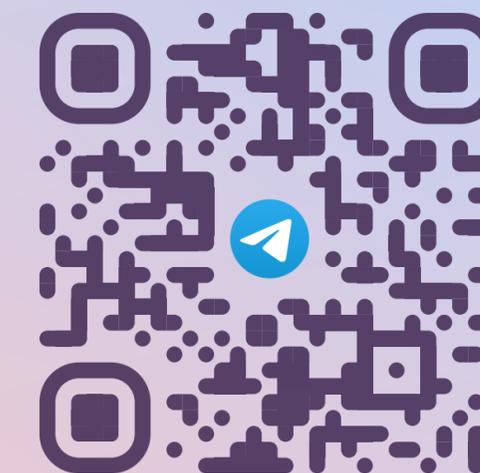

! Backlinks are not indexed

Our clients see results within **24-72 hours**. And it's not magic. It's algorithms, API integrations, and experience.

The screenshot displays the 2index web interface. At the top, there is a navigation bar with the 2index logo and various menu items: Тарифы, Вопрос / Ответ, Дополнения, API, Инструменты, Партнерская программа, Кейсы, Блог, and Контакты. The main content area is titled "Панель управления > Проекты". It features a summary card for the "Серый Ниндзя" tariff, showing 116 available projects and a speed of 1,000,000 links per day. A balance of 883,997 is also displayed. A notification indicates that there is an unused speed resource (994,595) that can be distributed among projects. Below this, there is a section for "Проекты 4" with a list of projects: "альтернатива 0...", "bustravel", "creditstore - site...", and "poizd - sitemap". A search bar at the bottom allows users to find projects by name or website address.
